WHERE POWER MEETS PRECISION

2013 GMC SIERRA

WE ARE PROFESSIONAL GRADE.

GMC

2013 GMC SIERRA

GMC. Our commitment is to push the limits of what's possible. Our dedication is to build professional-grade SUVs, trucks and vans. Our products are purposefully engineered to offer you the highest standards of performance, innovation and versatility. Like you, GMC believes that just being good enough is never enough and jobs worth doing are worth doing well. It's why the 2013 Sierra was built to work smart as well as efficiently. It's why Sierra can offer over 300 horsepower and an EPA-estimated 22 hwy mpg¹ in the same V-8 engine.

GMC. We are Professional Grade.

¹Sierra XFE model.

SIERRA 1500 CREW CAB SLT IN QUICKSILVER METALLIC shown with available equipment.

SIERRA 1500 DENALI ^[upper]

Our ¹/₂-ton Sierra 1500 Denali has a long list of standard features, including our 6.2L V-8. So you'll be able to combine strength and capability with premium features to create a truck tailored to your purpose.

SIERRA 2500 DENALI HD ^[center]

Our ³/₄-ton Sierra 2500HD Denali sits on a fully boxed, high-strength steel frame specifically engineered for HD applications. With the available Duramax Diesel 6.6L V-8 Turbo, it has a trailering capacity of up to 16,500 lbs.¹

SIERRA 3500 DENALI HD ^[lower]

Our 1-ton Sierra 3500HD Denali is the ultimate expression of professional-grade engineering. It offers an available maximum payload of up to 5355 lbs.² and maximum trailering of up to 22,600 lbs.³ with the available Duramax Diesel 6.6L V-8 Turbo.

**SIERRA DENALI & DENALI HD
ELEVATING THE STANDARD
OF EXCELLENCE.**

Professional Grade—at GMC, that's how we build our Sierra pickup truck, and Sierra Denali raises that standard to the highest levels of excellence. Available in all Sierra series, from 1500 and 2500HD to our 3500HD with single- or dual-rear wheels—no GMC truck works harder, works smarter, than Sierra Denali. It's smarter, thanks to Sierra 1500 Denali's standard Vortec 6.2L V-8. No competitor's V-8-powered pickup offers you 400-plus horsepower with better fuel economy.⁴ It's stronger, thanks to Sierra Denali HD's available Duramax Diesel 6.6L V-8—the most powerful engine ever offered in a GMC HD pickup truck. A combination of iconic grille, wheels and chrome accents distinguish the Denali exterior, while inside, Sierra Denali models reward you with a spacious interior so refined, it rivals the comfort and technology of the finest passenger sedans.

SIERRA 1500 DENALI FEATURES

For details, see corresponding page number listed below.

6.2L V-8 VVT Engine	pg. 17	Eaton [®] Automatic Locking Rear Differential	pg. 19
408 Horsepower	pg. 17	StabiliTrak [®] Stability Control System	pg. 20
437 lb.-ft. Torque	pg. 17	20" Chrome Aluminum [™] Wheels	pg. 29

¹Maximum trailer weight ratings are calculated assuming a base vehicle, except for any optional(s) necessary to achieve the rating, plus driver. The weight of other optional equipment, passengers and cargo will reduce the maximum trailer weight your vehicle can tow. See your GMC dealer for additional details. ²Maximum payload capacity includes weight of driver, passengers, optional equipment and cargo. ³Example: rated for up to 22,600 lbs. GVWR. ⁴Based on GM 2012 Large Pickup segment.

SIERRA DENALI INTERIOR
ITS DETAILS HAVE DETAILS.

Sierra Denali is a truck built by—and for—those who demand attention to detail. Its seating surfaces are trimmed in a premium leather material that's perforated for comfort. Its front seats are not only heated—they're cooled, too, and feature 12-way power adjustment. The gauge cluster integrates a Driver Information Center that puts valuable information in one place. Every surface your eye scans tells you this is no ordinary truck. Every feature you engage fulfills Denali's aim to be the ultimate Sierra.

SIERRA DENALI INTERIOR FEATURES

For details, see corresponding page number listed below.

12-Way Power Heated & Cooled Front Seats	pg. 24	Automatic Dual-Zone Climate Control	pg. 24
Leather-Wrapped Heated Steering Wheel	pg. 24	Bose® Centerpoint® Surround Sound System	pg. 26

SIERRA 1500 CREW CAB SLT IN QUICKSILVER METALLIC shown with available equipment.

1500 EXTENDED CAB

The rear doors of Sierra 1500 Extended Cab open 170 degrees, creating an ease of access for passengers and cargo that makes this Sierra ideal for everyday use.

SIERRA 1500
WASTE NOT, WANT NOT.

For Sierra 1500, GMC engineers have achieved a remarkable balance of power with fuel efficiency. It starts with Sierra XFE, our 2WD V-8-powered Crew Cab. Its standard 315-hp 5.3L V-8 offers an EPA-estimated 22 hwy mpg, the best of any competitive V-8 in its class.¹ Sierra 1500 is also available with a 403-hp Vortec 6.2L V-8 that is the highest output V-8 we've ever put in a GMC 1/2-ton pickup.

AVAILABLE SIERRA 1500 FEATURES

5.3L V-8 Engine	pg. 16	6-Speed Automatic Transmission	pg. 18
Active Fuel Management	pg. 16	StabiliTrak® Standard	pg. 20
315 Horsepower	pg. 17	20" Chrome Wheels	pg. 29

SIERRA SLT INTERIOR
PURPOSE, DRIVEN.

Sierra 1500 SLT wraps proven capability around an interior that combines comfort, convenience and style. The leather-appointed, 10-way adjustable front seats welcome you into a world where everything serves a purpose. Sierra's ergonomic design puts important functions easily within the driver's reach, including steering-wheel-mounted audio and cruise controls and an available touch-screen Navigation System.²

AVAILABLE SIERRA 1500 INTERIOR FEATURES

For details, see corresponding page number listed below.

Automatic Dual-Zone Climate Control	pg. 24	Rear-Vision Camera System	pg. 25
10-Way Power Front Seats	pg. 24	Touch-Screen Navigation ²	pg. 26

²Go to gm.com/bluetooth to find out which Bluetooth phones are compatible with the vehicle. ²Map coverage for Puerto Rico and the U.S. Virgin Islands available on separate disc. Coverage not available for portions of Canada.

STEERING WHEEL CONTROLS ^(upper)

Available steering-wheel-mounted controls allow the Sierra 1500 driver convenient access to radio volume and Bluetooth[®] for phone while keeping all eyes on the road.

REAR-VISION CAMERA SYSTEM ^(lower)

To help make backing out of parking spaces or hitching up trailers easier, a rear-vision camera displays what's in its field of vision. The available system places a monitor in your rearview mirror or navigation screen, if equipped.

SIERRA 1500 SLT INTERIOR IN LIGHT TITANIUM shown with available equipment.

SIERRA ALL-TERRAIN
AN OFF-ROAD ALL-STAR.

When the pavement ends, Sierra All-Terrain is well-prepared. It was born ready, thanks to a Z71 Off-Road Suspension with off-road jounce bumpers, a high-capacity air cleaner and skid plates designed to protect the front underbody oil pan, differential and transfer case (if equipped). Rancho® Tenneco™ shocks enhance its ability to take on challenging terrain. You decide the source of power: the standard 315-hp 5.3L V-8 or available 403-hp 6.2L V-8. You decide the style preferred: a four-bar chrome grille, chrome-accented bodyside molding and 18-inch chrome wheels, or body-color trim with body-color grille, bumpers, mirrors and door handles with 20-inch chrome wheels. Whichever you choose, Sierra All-Terrain is off-road ready the second you drive it off the showroom floor.

SIERRA ALL-TERRAIN FEATURES

For details, see corresponding page number listed below.			
Available 403-hp 6.2L V-8	pg. 17	Heavy-Duty Trailering Package	pg. 34
Eaton Automatic Locking Rear Differential	pg. 19	Rancho Tenneco Shocks	pg. 34
18" Chrome-Clad Aluminum Wheels	pg. 29	Z71 Off-Road Suspension	pg. 34

SIERRA ALL-TERRAIN INTERIOR

The brushed aluminum trim and available two-tone leather-appointed seating give Sierra All-Terrain an interior designed to match its unique exterior style.

Models | 11

SIERRA BODY COLOR ALL-TERRAIN IN SUMMIT WHITE shown with available equipment.

SIERRA 2500HD
STRENGTH WITH INTELLIGENCE.

Sierra 2500HD leads its class with a maximum $\frac{3}{4}$ -ton fifth-wheel trailer rating of up to 17,800 lbs.¹ It is strength combined with smarts, thanks to two innovations. StabiliTrak is a stability control system that helps you stay on the path you are steering in bad weather or on uneven road surfaces. Trailer Sway Control uses StabiliTrak's sensors to detect the rocking of a swaying trailer, then automatically applies the vehicle's brakes to bring it back in line. Need range? Sierra 2500HD with the available Duramax Diesel 6.6L V-8 Turbo has a highway mileage range of up to 680 miles.²

SIERRA 2500HD FEATURES

For details, see corresponding page number listed below.

6.0L V-8, 360 hp, 380 lb-ft Torque	pg. 17	36-Gallon Fuel Tank (approx.)	pg. 21
Fully Boxed Steel Frame	pg. 20	13,000 lb Conventional Hitch Max Trailer Rating ³	pg. 40
Available Diesel Exhaust Brake	pg. 21	17,800 lb Fifth-Wheel Max Trailer Rating ³	pg. 40

¹Maximum trailer weight ratings are calculated assuming a base vehicle, except for any option(s) necessary to achieve the rating, plus driver. The weight of other optional equipment, passengers and cargo will reduce the maximum trailer weight your vehicle can tow. See your GMC dealer for additional details. ²Based on GM testing and fuel tank capacity. Your range may be less. ³Maximum payload capacity includes weight of driver, passengers, optional equipment and cargo.

SIERRA 2500HD CREW CAB SLT IN QUICKSILVER METALLIC shown with available equipment.

PAYLOAD AND TRAILERING (below, top left)

Sierra 2500HD has a maximum payload of up to 4212 lbs.³ and with the available Duramax Diesel 6.6L V-8 Turbo, a maximum trailering capacity of up to 13,000 lbs³ with a conventional ball hitch, or up to 17,800 lbs³ with a fifth-wheel or gooseneck hitch.

FOLDING MIRRORS (below, top right)

The outside mirrors fold to make it easier to navigate tight spaces, or available camper mirrors (shown at bottom) extend to give you a wide view and you can retract them when parking in narrow spaces.

RECIRCULATING BALL STEERING (bottom)

Who says the steering in a heavy-duty pickup needs to feel sluggish? Sierra HD models feature recirculating ball steering, which helps give the driver direct feedback to steering inputs. So the response is quick and nimble.

PAYLOAD CAPACITY (upper)

The most capacity you can get in a GMC Sierra®. Our 3500HD Regular Cab 2WD Long Bed with dual rear wheels with a best-in-class payload capacity of up to 7222 lbs.¹ If it's cargo and crew you need to haul, or a combination of both, the Sierra Crew is a Sierra built for the heaviest of heavy-duty jobs.

WIDE-VIEW MIRROR (center)

All 3500HD models come standard with vertical camper-style, convex spotter surface mirrors that help you see what's along your flanks when you're trailering a wide load.

TRAILERING CAPACITY (lower)

With a best-in-class 1-ton maximum fifth-wheel trailering capacity of up to 23,100 lbs.² and a GCWR of 30,500 lbs.,³ Sierra 3500HD puts professional-grade power to work for you (Crew Cab model shown can trailer up to 22,500 lbs.³).

SIERRA 3500HD EXCUSELESS.

The 2013 Sierra 3500HD is simply the toughest, strongest, most capable 1-ton pickup truck we've ever built. Its available Duramax Diesel 6.6L V-8 Turbo generates 765 lb-ft of torque and 397 horsepower that will keep the momentum rolling effortlessly all day long, thanks to an Allison® 6-speed transmission geared to put you in precisely the right rpm range for optimum performance and efficiency. Sierra 3500HD's powertrain is mounted to a fully boxed frame that's 92 percent stronger and has five times more torsional stiffness than our previous generation heavy-duty frame.

SIERRA 3500HD FEATURES

For details, see corresponding page number listed below.

6.0L V-8, 360 hp, 380 lb-ft Torque	pg. 17	36-Gallon Fuel Tank (approx.)	pg. 21
Fully Boxed Steel Frame	pg. 20	18,000-lb Conventional Hitch Max Trailer Rating ¹	pg. 40
Available Diesel Exhaust Brake	pg. 21	23,100-lb Fifth-Wheel Max Trailer Rating ²	pg. 40

¹Maximum payload capacity includes weight of driver, passengers, optional equipment and cargo. ²Maximum trailer weight ratings are calculated assuming a base vehicle, except for any optional(s) necessary to achieve the rating plus driver. The weight of other optional equipment, passengers and cargo will reduce the maximum trailer weight your vehicle can tow. See your GMC dealer for additional details. ³When properly equipped, includes weight of the vehicle and trailer combination, including the weight of driver, passengers, fuel, optional equipment and cargo on the vehicle and trailer.

SIERRA 3500HD CREW CAB SLT WITH DUAL REAR WHEELS IN QUICKSILVER METALLIC shown with available equipment.

1500 ENGINES

Vortec gasoline-powered V-6 and V-8 engines available in Sierra 1500 are remarkable for the technology they bring to the full-size pickup. The results: power of up to 403 hp from the available Vortec 6.2L V-8, and competition-leading V-8 fuel efficiency of up to 22 mpg hwy from the available Vortec 5.3L V-8.¹

¹EPA-estimated 22 mpg hwy for Sierra XFE. Based on 2012 GM Large Pickup segment.

1 VORTEC ENGINES To give you uncompromised power and torque for confident daily driving, passing and trailering, look no further than the Vortec engine family. Each model uses innovative "vortec technology" to swirl and tumble incoming air and fuel for optimum power and response.

VARIABLE VALVE TIMING (VVT) For easy responsiveness in low-speed city driving and bold power for open-road passing or trailering, many Vortec engines feature VVT. It monitors and changes valve open and close points for near-peak levels of torque across the entire range of engine speeds.

2 ACTIVE FUEL MANAGEMENT Sierra 5.3L V-8 engines use Active Fuel Management. This available system senses load and demand, then activates or deactivates four of the engine's eight cylinders. In Sierra XFE, the result is competition-leading V-8 EPA-estimated highway fuel economy of 22 mpg.² A valve lifter (above) deactivates the cylinder. Under high-demand conditions, the valve's switching mechanism is depressurized, reengaging the cylinder and restoring full power, without you ever noticing the transition.

²Based on GM 2012 Large Pickup segment.

HD ENGINES

Sierra 2500HD and 3500HD models offer Vortec V-8 gasoline and Duramax Diesel engines. No matter which you choose, you'll have plenty of what you demand from a heavy-duty pickup: power and torque, with deep reserves of both for when your right foot asks for maximum effort.

3 DURAMAX DIESEL 6.6L V-8 TURBO With direct-injection technology that helps it start in as little as 3.0 seconds at -40°F and a sophisticated Allison[®] transmission with overdrive, the available Duramax Diesel 6.6L gives you a maximum highway range of up to 680 miles on a single fill-up.³

³Based on GM testing and fuel tank capacity. Your range may be less.

DURAMAX B20 BIODIESEL CAPABILITY To reduce carbon-dioxide emissions and stretch your fuel budget, the Duramax 6.6L can operate on B20 biodiesel, a mix of 20 percent biodiesel from domestic, renewable resources, and 80 percent petroleum diesel.

DURAMAX HIGH-PRESSURE DIRECT INJECTION For fast starts in cold weather, quieter operation and maximum efficiency, the direct injection system operates at nearly 30,000 psi to turn heavy diesel fuel into a fine mist, burning cleaner and faster with lower emissions and greater power than the previous model.

HYBRID

GMC engineers gave Sierra Hybrid the capability of a V-8 with the efficiency of a four-cylinder. The result: 332 horsepower, 367 lb-ft torque, up to 1527 lbs of payload⁴ and up to 6100 lbs of conventional trailering⁵—all with a category-leading fuel economy of an EPA-estimated 20 city/23 hwy.⁶

⁴Maximum payload capacity includes weight of driver, passengers, optional equipment, and cargo assuming a base vehicle, except for any option(s) necessary to achieve the rating, plus driver. The weight of other optional equipment, passengers and cargo will reduce the maximum trailer weight your vehicle can tow. See your GMC dealer for additional details. ⁵Based on GM 2012 Large Pickup segment.

4 HYBRID MODEL VORTEC 6.0L V-8 VVT (L7) WITH ACTIVE FUEL MANAGEMENT To deliver outstanding economy⁷ without compromise to torque or horsepower, the 6.0L V-8 VVT is engineered with Active Fuel Management technology to deactivate four of its eight cylinders under light loads and low speeds. At highway speeds, the cylinders reactivate in an instant to give you full engine power.

⁷EPA-estimated mpg 20 city/23 hwy

5 300-VOLT NIMH BATTERY PACK The Nickel-Metal Hydride (NiMH) battery technology can store a lot of energy in a small space. In fact, the 300-volt battery pack is strong enough to propel your Sierra for miles, yet small enough to fit under the rear seat.

HYBRID MODEL 2-MODE TRANSMISSION To conserve fuel at low speeds or under light loads, this 2-mode transmission has two integral electronic motors that engage to give Sierra Hybrid smooth, effortless power. At higher loads and speeds with the 6.0L V-8 fully engaged, it acts as a normal automatic transmission.

REGENERATIVE BRAKING SYSTEM During normal stops, regenerative braking uses the motors in the hybrid transmission as generators to slow the vehicle by applying resistance in the motors rather than brake friction. Simultaneously, that energy is captured as electricity in the 300-volt battery pack, available for the next acceleration cycle.

ALL ENGINES

At GMC, we've always believed in building the right tool for the job. With Sierra, that translates into the widest range of engines of any pickup truck manufacturer. We also believe that keeping your GMC operating at peak performance should be easy, and thanks to innovative features like an Oil Life Monitor and available OnStar engine diagnostics, it is.

1500 ENGINES			
VORTEC 4.3L V-6 [L33]	HORSEPOWER: 195 hp @ 4600 rpm	TORQUE: 260 lb-ft @ 2800 rpm

OIL LIFE MONITOR For long life and durability, nothing is more important than changing your oil at the right time. GMC engineered the mystery out of this essential service with the Oil Life Monitor. It calculates how much life your oil has left, based on when and how you drive. Then, it updates you with a teletext on your Driver Information Center.

E85 FLEXFUEL CAPABILITY⁹ Most Sierra gas V-8 engines are capable of running on E85 ethanol, an advanced biofuel. ⁹E85 is a blend of 85 percent ethanol and 15 percent regular gasoline. Visit gmc.com and search E85 for more information on E85 as an alternative fuel.

ONSTAR VEHICLE DIAGNOSTICS¹⁰ Standard with your 6-month trial subscription to OnStar, the OnStar Vehicle Diagnostics service can run hundreds of checks of your engine, transmission, antilock brakes and more, then organize the information into an easy-to-read monthly report. OnStar can also run a check of your vehicle as you drive just by pressing the blue button and asking the Advisor for an On-Demand Diagnostics check. So now, the peace of mind that comes from knowing the condition of your Sierra's key systems is as easy as checking your e-mail.

¹⁰Visit onstar.com for details and system limitations.

TRACTION CONTROL SYSTEM To make the most of available traction on many road surfaces, traction control measures and compares the speed of your wheels. If it senses one or more wheels starting to spin, such as on a slippery surface, the system applies individual brakes and manages engine power to slow the wheel down and maintain traction so you can move forward with a better sense of control.

TRANSMISSIONS/DRIVETRAIN

A pickup truck's transmission and driveline components are critical to translating every rotation of the engine's crankshaft into power at the drive wheels—power to tow and haul, power to pass, power to grip snow-covered asphalt or gravel-strewn backroads. GMC Sierra offers a range of robust yet refined transmissions precisely matched to maximize the power delivery, efficiency and load demands of our eight Sierra engines.

SIERRA HEAVY DUTY

ALLISON® 1000 SERIES 6-SPEED AUTOMATIC WITH OVERDRIVE How do you handle the 765 lb-ft of torque produced by Sierra HD's available Duramax Diesel engine? GMC engineers specified the Allison 1000 Series 6-speed automatic with overdrive for its heavy-duty strength and durability.

HEAVY DUTY 6-SPEED AUTOMATIC WITH OVERDRIVE Sierra HD's Vortec 6.0L V-8 is mated to a 6-speed automatic with overdrive built for heavy duty. It's a sophisticated tool that features Tow/Haul mode, Driver Shift Control and Automatic Engine Grade Braking to help you use the full potential of Sierra HD with confidence.

SIERRA 1500

6-SPEED AUTOMATIC WITH OVERDRIVE Engineered for control and confidence in a wide variety of situations, the 6L80-E 6-speed automatic is an ideal partner for Sierra 1500's Vortec family of gasoline engines. Filled with innovative technology, this available transmission can help you cut steep climbs, long grades and heavy loads down to size.

4-SPEED AUTOMATIC OVERDRIVE TRANSMISSION Proven in millions of Sierra 1500s, this durable 4-speed automatic with overdrive gives you smooth shifts with the strength of millions of miles of experience. It's engineered with Tow/Haul mode to handle maximum loads with ease.

ALL MODELS

TOW/HAUL MODE To give you more power to accelerate, Tow/Haul mode raises transmission up-shift points. This feature also helps you slow your Sierra by raising downshift points, which uses engine compression to slow your Sierra.

want to slow your Sierra, and when the conditions are met, engages a Grade Braking shift schedule that helps you maintain your desired speed.

DRIVER SHIFT CONTROL

Move through the gears like a manual, with the convenience of an automatic. Move the shift lever to "M," and you get fingertip "tap up/down" range control of transmission gear selection. Included with select automatic transmissions.

AUTOMATIC ENGINE GRADE BRAKING Standard with gasoline 6-speed automatic transmissions, Grade Braking automatically senses when you

**AUXILIARY EXTERNAL
TRANSMISSION OIL COOLER**
Available on Sierra 1500 and
standard on Sierra HD, an air-to-oil
auxiliary cooling unit helps keep
transmission temperatures in
check—especially critical when
trailing or plowing snow.

**ALLISON 1000 SERIES 6-SPEED
AUTOMATIC WITH OVERDRIVE**
Designed by the same company
that makes transmissions for
military tanks, this transmission
is the exclusive partner for the
available Duramax Diesel engine
in Sierra HD.

**AUTOMATIC ENGINE GRADE
BRAKING** On all gas-engine Sierra
models, the 6-speed transmissions
come with Automatic Engine Grade
Braking. This feature adds brake
assistance on downhill grades,
automatically sensing when to slow
your Sierra. When the conditions are
met, it engages a Grade Braking shift
schedule that selects the right gear
to optimize engine braking.

**EATON® HEAVY-DUTY AUTOMATIC
LOCKING REAR DIFFERENTIAL** No
other competitor in its class offers
an available fully automatic locking
rear differential for on- and off-road
use. Available on Sierra 1500 and
Sierra 2500HD and standard on
3500HD, the Eaton Locker senses when
there's a difference in rotational speed
between left and right rear wheels of
approximately 100 rpm. It then locks the
differential to turn both rear wheels in
unison for added traction.

CHASSIS/CONTROL SYSTEMS

There's a critical difference between just driving a truck and commanding a GMC Sierra. One fundamental source of that difference: the Sierra chassis and control systems. GMC engineers took the powerful drivetrains of Sierra and mounted them to strong, rigid frames—one for Sierra 1500 and another built for Sierra HD models. Then they gave each chassis advanced control systems designed to make driving Sierra and Sierra HD easier under heavy load. One example: StabiliTrak, a stability control system standard on all Single Rear Wheel (SRW) Sierra models. Sensing when your vehicle is not responding to your steering inputs, StabiliTrak adjusts engine speed and applies brake pressure to any individual wheel to help maintain directional control.

SIERRA 1500

7 SIERRA 1500 FRAME To help resist bending, twisting and shaking, Sierra 1500 frames feature a hydroformed front section and are fully boxed from the nose to the spare tire area. This construction technique essentially welds a frame inside a frame to create a closed "box" section that gives a strong, stable platform for the engine and cab.

8 FULLY INDEPENDENT FRONT SUSPENSION On Sierra 1500 models, our coil-over-shock front suspension delivers improved ride quality versus torsion-bar designs.

POWER RACK-AND-PINION STEERING Power rack-and-pinion steering provides Sierra 1500 models with a positive on-center feel at highway speeds, as well as extra low-speed assist for maneuvering in tight spaces.

STABILITRAK A stability control system that's standard on all Single Rear Wheel (SRW) Sierra models, StabiliTrak senses when your vehicle is not responding to your steering inputs and adjusts engine speed and applies brake pressure to any individual wheel to help maintain directional control.

SIERRA HD

9 SIERRA HD FRAME Not just a beefed-up light-duty frame, the Sierra HD frame is specifically engineered for HD use. Crafted from high-strength steel, the HD frame is fully boxed along its entire length, with fully welded (not riveted) brackets and cross-members. Tubular cross-members are through-rail welded for significantly added strength and resistance to twisting over rough surfaces.

10 MULTILEAF REAR SPRINGS The more load Sierra HD takes, the more its springs step up to the task. To handle heavy-duty payloads, GMC engineers specced out Sierra HD models with rear leaf springs that are 3 inches wide—two-stage for 2500HD models and three-stage for 3500HD models.

TORSION BAR DESIGN The Sierra HD frame uses torsion bar suspension. Pioneered for pickups by GMC, the torsion bar is designed to support different front axle loads and to retain proper trim height.

¹Capabilities and weight ratings are dependent upon model, engine, transmission and GVWR combinations. See your GMC dealer for details.

HEAVY-DUTY POWER STEERING
Sierra HD models feature recirculating ball power steering. The high-capacity power steering pump and large reservoir help to give a constant level of assist, even when operating at the maximum weight.

DIESEL EXHAUST BRAKE To let you engage an extra measure of braking confidence on long grades, the diesel exhaust brake, included with the available Duramax Diesel engine, uses engine compression to create "negative torque" to help slow the vehicle. It is factory installed and calibrated to work with the rest of your Sierra HD's braking system.

HYDRAULIC BODY MOUNTS How do you balance the demand for a rigid frame with desire for cabin comfort? GMC engineers positioned the Sierra HD Extended and Crew Cab on rear mounts filled with hydraulic fluid, creating a smooth, quiet ride quality.

36-GALLON FUEL TANK (approx) When equipped with the available Duramax Diesel, Sierra HD has a highway range of up to 680 miles on a single tank of fuel,² thanks to its 36-gallon fuel tank.
²Based on GM testing and fuel tank capacity. Your range may be less.

ANTILOCK BRAKING SYSTEM (ABS)
For confident stops in a variety of conditions, every Sierra features four-channel antilock brakes. When the brakes are applied, ABS can detect impending wheel lock-up and then pulse that wheel's brake to prevent it. The system can activate any combination of vehicle brakes to maintain control.

HILL START BRAKE ASSIST
To help you hold your place when parked or stopped on a hill, Hill Start Brake Assist senses potential "roll-back" and then holds full brake pressure when you lift your foot from the pedal. It gives you up to 1.5 extra seconds to apply power and drive off. (Not available on Hybrid or DRW models.)

INTELLIGENT BRAKE ASSIST
In an abrupt stop, milliseconds can be your margin of safety. That's why Sierra's Intelligent Brake Assist senses when you are making an emergency stop, then automatically applies full braking force before your foot can press the pedal all the way. Not available on Dual Rear Wheel (DRW) models.

POWER FOUR-WHEEL DISC BRAKES The most powerful HD we've ever produced demanded the most powerful brakes we've ever developed for an HD pickup. To help ensure consistent, fade-free performance, the brake discs measure a generous 14" in diameter and utilize twin piston calipers.

Features & Benefits | 21

SIERRA 2500HD CREW CAB SLT IN ONYX BLACK shown with available equipment.

TRAILERING

GMC Sierra and Sierra HD are engineered to offer you professional-grade trailering capability. Whether you're headed out for work or recreation, Sierra offers a wide range of trailering capacities to meet your needs. Complete trailering ratings for Sierra 1500 are listed on page 39, and ratings for Sierra 2500HD and 3500HD models are listed on page 40.

11 MULTI-STAGE REAR LEAF SPRINGS For big capacity when you need it and a smoother ride when you don't, Sierra HD's 3"-wide multileaf rear springs engage progressively as the load in the bed or on the hitch increases. In 2500HD, it's a 2-stage progression, and on 3500HD, it's 3-stage for added load-bearing capacity.

12 TRAILER SWAY CONTROL Keep both you and your trailer heading in the proper direction, automatically. This system uses StabilTrak sensors to detect the rocking of a swaying trailer, and then applies the vehicle's brakes and the trailer's brakes (if properly equipped) to help bring it back in line. The only thing you feel is confidence. (Trailer Sway Control not available on Hybrid or DRW models.)

13 TRAILER BRAKE CONTROLLER For fingertip control and easy monitoring of your trailer brakes, Sierra offers an integrated trailer brake controller. It is located close to the steering wheel for easy adjustments and displays the level of brake force or "gain" in the Driver Information Center. (Not available on Hybrid, standard on 3500HD models.)

FIFTH-WHEEL FRAME MOUNT PROVISIONS Sierra HD models offer easy installation of fifth-wheel and gooseneck hitches. GMC engineers added prepierced access holes to preserve frame integrity as well as a pair of extra cross-members for added strength in the hitch-mount location.

MAXIMUM TRAILER RATINGS¹

1500	Up To	10,700 lbs
2500HD	Up To	17,800 lbs
3500HD	Up To	23,100 lbs

Complete trailering ratings for Sierra 1500 are listed on page 39, and ratings for Sierra 2500HD and 3500HD are listed on page 40.

¹Maximum trailer weight ratings are calculated assuming a base vehicle, except for any option(s) necessary to achieve the rating, plus driver. The weight of other optional equipment, passengers and cargo will reduce the maximum trailer weight your vehicle can tow. See your GMC dealer for additional details.

INTERIOR

Climb into the cab of a GMC Sierra and you'll quickly get the sense that everything that surrounds you has been purpose-built for your needs. From the integration of advanced technologies to the supportive seats to carefully calculated storage bins, Sierra's spacious interior is designed to put the driver in control and the passengers at ease.

14 HEATED AND COOLED FRONT SEATS The ultimate in all-weather comfort, these seats are appointed in a perforated leather that allows the cooling feature to circulate air between you and the seat surface. They are standard on Denali and available on SLT models.

POWER FRONT SEATING Get comfortable more easily with power-adjustable front seats. Power driver seat adjustment is available for 40/20/40 seating with select equipment packages, and power driver and passenger seats are included with all bucket seats in SLE (6-way), SLT (10-way) and Denali (12-way).

POWER-ADJUSTABLE PEDALS To help drivers of varying sizes sit at a comfortable distance from the steering wheel, adjustable pedals with memory are available on SLE and SLT models, and are standard in Denali.

HEATED STEERING WHEEL Exclusive to Denali, the leather-wrapped, heated steering wheel adds soothing warmth whenever the driver demands it.

15 CLIMATE CONTROL All Sierra models are equipped with air conditioning. Automatic dual-zone climate control with individual settings for the driver and right-front passenger is standard on SLT and Denali, and available on SLE.

BLUETOOTH® FOR PHONE Extend your capabilities by activating the available Bluetooth feature. This lets your Bluetooth device work through the vehicle's controls and features already installed in your Sierra, including hands-free operation and dialing.

*Go to gm.com/blue to find out which Bluetooth phones are compatible with the vehicle.

DRIVER INFORMATION CENTER Staying in touch with the most important vehicle information is as easy as pressing a button. The Driver Information Center includes the odometer and trip odometers, as well as a message center that keeps you informed about vital vehicle functions and driving conditions. SLE, SLT and Denali include a compass and outside temperature indicator.

CONVENIENCE

Available on GMC Sierra are a number of advanced features that enhance the level of convenience you can enjoy behind the wheel. Each helps transform ordinary tasks—starting the vehicle, searching for a song, reversing into a parking space—seamlessly integrating innovative technologies to create a truly exceptional driving experience.

16 REAR-VISION CAMERA SYSTEM

Make it easier to back up to a trailer or negotiate a tight space. This available system places a monitor in your rearview mirror (or navigation screen, if equipped) to display a view of the area behind the vehicle. The rear-vision camera does not replace driver vision. Please use proper care when backing up.

17 REMOTE VEHICLE START

This available feature lets you start your vehicle from up to 195 feet away. Your Sierra will run for up to 10 minutes. If equipped with the automatic climate control system, it will default to heating or cooling mode based on the outside temperature.

18 UNIVERSAL HOME REMOTE

Never get locked out again. This available remote can be easily programmed to operate the majority of garage-door-opening systems, and has the benefit of never needing batteries.

19 STEERING-WHEEL-MOUNTED RADIO CONTROLS

Play your audio system with your fingertips, while you keep your eyes on the road. These available fingertip controls can also manage most music search features of compatible MP3 and iPod® players, as well as Bluetooth® for phone.

*Go to gm.com/bluetooth to find out which Bluetooth phones are compatible with the vehicle.

ULTRASONIC REAR PARKING ASSIST

This available system sends out ultrasonic waves that act like rear bumper radar to alert you to the distance of objects up to 8 feet behind the vehicle. The system operates at speeds less than 5 mph. The closer you are, the faster it beeps, to give you a clear signal that can help you operate the vehicle with maximum care.

ENTERTAINMENT

Sierra is available with a range of entertainment technologies to enhance your experience. The quiet passenger cabin is the perfect starting point for you and your passengers to enjoy the available audio and DVD Rear-Seat Entertainment System. Information, music and video—it's all available via controls and touch-screen technology that make finding exactly what you want easy.

BOSE® AUDIO SYSTEMS Make the front seat of your Sierra sound like the front row of your favorite concert. Bose systems are engineered to give you the realism and presence of a live performance. Standard on SLT and available on SLE models, Bose Audio features steering-wheel-mounted radio controls and a premium speaker system, with a center console-mounted woofer for rich bass tones that give you a fuller listening experience.

BOSE CENTERPOINT® SOUND Denali models have standard Bose Centerpoint surround-sound system with SurroundStage® signal processing for the sensation of a live performance while you drive. This technology, along with AudioPilot® noise compensation, wraps you in sound, delivering five independent channels from existing two-channel recordings.

AUXILIARY INPUT This available feature accommodates most MP3 players and devices, including many smartphones. So you can bring the music and entertainment you love to your Sierra just by plugging in.

REAR-SEAT ENTERTAINMENT SYSTEM Let your rear-seat passengers enjoy the ride in your Sierra even more. Available in SLT and Denali Crew Cab models, this system includes a DVD player and 8" flip-down screen. It also comes with dual-play, which has a separate upper DVD slot in the radio to let front-seat passengers control the DVD or music playing behind them. The system is compatible with most popular video gaming systems.

DEALER-INSTALLED WI-FI* Connect up to 20 wireless users at one time and stay in touch with your life's vital information with the first wireless router designed just for automotive use. Ask your dealer for specific plans and prices for this available system.

*Monthly rates apply. Visit autonemobile.com for coverage map and details.

TOUCH-SCREEN NAVIGATION SYSTEM For easy operation, the available system includes a large 7" in-dash touch-screen display, 2-D or 3-D map graphics and 3 months of NavTraffic.² OnStar subscribers can also use this system with OnStar Turn-by-Turn Navigation assistance (6 months standard). For your convenience, this screen also serves as a large, easily read monitor for the available Rear-Vision Camera System. Its sophisticated features include pause-and-play capability for live broadcasts that works like a DVR for your vehicle, a built-in hard drive, an available XMWeather subscription and improved display resolution for enhanced visibility and viewing.

²Map coverage for Puerto Rico and the U.S. Virgin Islands available on separate disc. Coverage not available for portions of Canada. ³If you subscribe after your trial period, *subscriptions are continuous until you call/SiriusXM to cancel.* See SiriusXM Customer Agreement for complete terms and geographic limitations at siriusxm.com. Other fees and taxes will apply. All fees and programming subject to change.

USB PORT* Plug your digital devices into the available USB port in the center console.

*Not compatible with all devices.

SiriusXM SATELLITE RADIO/NAVTRAFFIC² Enjoy SiriusXM Satellite Radio in your Sierra with a 3-month trial subscription to the XMPremier Package. Only SiriusXM brings you more of what you love, all in one place. Get over 130 channels, including commercial-free music, plus the best sports, news, talk, comedy and entertainment. With NavTraffic, you'll get continuously updated traffic information as it occurs, right on your vehicle's available navigation system. Welcome to the world of SiriusXM. (Available on WT models.)

²If you subscribe after your trial period, *subscriptions are continuous until you call/SiriusXM to cancel.* See SiriusXM Customer Agreement for complete terms and geographic limitations at siriusxm.com. Other fees and taxes will apply. All fees and programming subject to change.

ONSTAR

How do more than six million drivers stay safe on the road? With OnStar,[®] our integrated communications system that connects you to a variety of information—and to a real, live Advisor whenever you push the OnStar button on the overhead console. OnStar is technology designed to enhance your safety, security and peace of mind. A 6-month subscription to the OnStar Directions & Connections Plan is standard on most Sierra models (available on WT.)

⁶Visit onstar.com for coverage map, details and system limitations. OnStar acts as a link to existing emergency service providers. Services vary with conditions.

DIRECTIONS & CONNECTIONS
PLAN⁷ Success in today's fast-

PLAN. Success in today's fast-moving world means finding and focusing on the information that means the most to you. To put this capability at your fingertips, a Sierra comes standard with a 6-month trial subscription to the OnStar Directions & Connections Plan. [Available on WT models.]

7. Visit onstar.com for coverage map, details and system limitations. OnStar acts as a link to existing emergency service providers. Services vary with conditions.

**HANDS-FREE CALLING[®] WITH
VOICE-ACTIVATED DIALING**

ing is built into your Sierra. Just push a button, call out the number and you're free to keep your eyes on the road. It's reliable, because it is specially designed for better connectivity and fewer dropped calls in areas with limited cellular reception.

*Visit onstar.com for coverage map, details and system limitations. OnStar Hands-Free Calling requires a hands-free calling-enabled vehicle, existing OnStar service contract and prepaid minutes. Not available in certain markets. Calls can be made in U.S. and Canada only.

TURN-BY-TURN NAVIGATION

Drive with more confidence and certainty. OnStar Turn-By-Turn Navigation is built into OnStar-equipped Sierra models. It's as simple—all you have to do is push one button and ask the OnStar Advisor to download directions to your vehicle. Turn-By-Turn is also smart, because an automated voice calls out every turn as you need it.

22 ONSTAR VEHICLE

UNSTAR VEHICLE DIAGNOSTICS The peace of mind that comes from knowing the condition of your Sierra's key systems is as easy as checking your e-mail. UnStar Vehicle Diagnostics is a service that is standard with your 6-month trial subscription to the Directions & Connections Plan and can run hundreds of checks of your Sierra's engine, transmission, front and rear brakes and more, then organize the information in an easy-to-read month report. UnStar can also run a check of your vehicle as you drive; just press the blue button and ask the Advisor for an On-Demand

Diagnostics check. That's peace of mind when you need it.

⁹Capabilities vary by model. Visit onstar.com for details and system limitations.

DESTINATION DOWNLOAD

Looking for a destination in your screen-based navigation system? OnStar will do it for you. Simply press your blue OnStar button, and you will be connected with a trained Advisor who will download your directions to your Sierra's available screen-based navigation system. You can also have destinations downloaded on the go—no need to pull over to enter new addresses. It's an enhancement to navigation that makes screen-based navigation systems easier and faster to use.

STOLEN VEHICLE ASSISTANCE

If your Sierra is ever stolen, OnStar can help locate it after verification with law enforcement. OnStar can use built-in GPS technology to help to locate it, prevent it from restarting with Remote Ignition Block or, if the vehicle is in use, engage the Stolen Vehicle Slow-

down technology to help police
recover it quickly and safely.

ROADSIDE ASSISTANCE¹⁰ If

the unexpected happens on the road—you're stranded, run out of gas or have a flat tire—once pushed, the OnStar button can immediately connect you to an Advisor, ready to help any hour of the day or night. OnStar can use GPS technology to pinpoint your location and connect you to a service provider. No guessing about where you are or what to do.

¹⁰⁰Roadside service provided by Cross Country.

REMOTE DOOR UNLOCK It's hap

After verifying your account, an OnStar Advisor can send a signal to your Sierra that usually unlocks the doors within minutes."

¹¹Requires power door locks. Services vary by model and conditions.

AUTOMATIC CRASH RESPONSE

If your Sierra is in a crash, built-in sensors can automatically send

an alert to OnStar. An OnStar Advisor is immediately connected to your vehicle to help you. Even if you aren't capable of responding, the Advisor can use GPS technology to locate you and request that emergency help is sent right away.

23

OnStar can offer assistance and help you navigate your way to safety. Just push the red OnStar emergency button and our specially trained Crisis Assist Team moves quickly to help you. OnStar can pinpoint your location and provide up-to-date information from public safety authorities. Request that help be sent to you or even contact family members or loved ones.

EMERGENCY SERVICES

If someone in the vehicle needs emergency help, the OnStar emergency button gives you a priority connection to a specially trained Advisor at any time, day or night. OnStar uses GPS technology to pinpoint your location and

can request police, fire or medical support be sent right away. The Advisor can also stay with you on the line until help arrives.

24 ONSTAR REMOTELINK APP¹²

The OnStar RemoteLink app offers an amazing level of control and connection with your vehicle. After downloading and registering the app, GMC owners with an eligible vehicle can use their iPhone® or Android™-based mobile devices to control their vehicle from their phone and perform specific commands—like unlocking their doors—remotely.¹³ You can lock/unlock your doors from any distance, start your vehicle remotely,¹⁴ sound your horn and flash your lights to help locate your vehicle or contact an OnStar Advisor, Roadside Assistance or your preferred dealer. To learn all about all the great features available, go to onstar.com.

¹²Available on iPhone,[®] select Android[™] and BlackBerry[®] platforms. Services vary by phone and conditions. ¹³Requires power door locks. ¹⁴Requires factory-installed remote start.

SAFETY

Sierra is designed to help protect you before, during and after a collision. Advanced chassis control technologies help Sierra drivers avoid potential accidents. A system of air bag supplemental restraints¹ helps protect passengers during a collision. With the available OnStar Automatic Crash Response² (standard for 6 months), Sierra can even connect you to help in the critical moments immediately after you're involved in a crash.

¹Air bag inflation can cause severe injury or death to anyone too close to the air bag when it deploys. Be sure every occupant is properly restrained. Always use safety belts and the correct child restraint for your child's age and size, even with air bags. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal air bag. See your vehicle Owner's Manual and child safety seat instructions for more safety information. ²Visit onstar.com for coverage map, details and system limitations. OnStar acts as a link to existing emergency service providers.

25

26

25 FRONTAL AIR BAGS³ All Sierra models come with driver and front-passenger air bags. To help reduce the risk of injury to passengers, Light Duty models come standard with dual-stage frontal air bags that have sensors to gauge the severity of a crash, then determine whether to deploy one or two levels of inflation. Sierra Light Duty models also feature a Passenger Sensing System for the outboard front passenger that automatically turns off the air bag if the passenger is under the appropriate weight.

26 HEAD CURTAIN SIDE-IMPACT AIR BAGS³ These air bags unfurl from the roof rail like a protective curtain for outboard passengers, and can be activated by either rollover sensors or side-impact sensors. They are available on select Heavy Duty models.

³Air bag inflation can cause severe injury or death to anyone too close to the air bag when it deploys. Be sure every occupant is properly restrained. Always use safety belts and the correct child restraint for your child's age and size, even with air bags. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal air bag. See your vehicle Owner's Manual and child safety seat instructions for more safety information.

SEAT-MOUNTED SIDE-IMPACT AIR BAGS³ To help protect the thorax and pelvic regions of the driver and outside front passenger in a side-impact collision, Sierra Light Duty and Heavy Duty Denali models include side-impact air bags mounted on the driver and outside front passenger seat. They are available on select Heavy Duty models.

LATCH CHILD SEAT ANCHORING SYSTEM Make it easier to properly install a child seat. LATCH stands for Lower Anchors and Top tethers for Children. A LATCH seat will install to specially designed retainer hooks in your Sierra with an audible "click." It also means that you can install a top tether strap that helps limit movement in a forward crash to help reduce the chance of injury.

REINFORCED STEEL SAFETY CABE DESIGN Sierra's robust body structure is engineered to help maintain the integrity of the passenger compartment in the event of a collision. All steel from wheel to wheel, the body is designed to crush in a controlled manner in the event of a collision, absorbing the energy of a crash as much as possible.

PASS-KEY III+ THEFT DETERRENT SYSTEM Preventing unauthorized starting attempts in your Sierra comes down to a tiny chip found in your ignition key. It functions as an electronic "fingerprint" that disables your starting system if it detects a theft attempt is underway.

WHEELS

A selection of strong, stylish GMC wheels in a range of sizes is available to help you tailor your new Sierra precisely to your personal taste. Whether you choose painted steel, chrome-clad aluminum or forged polished aluminum, each wheel features a durable finish designed to withstand the test of time, and many are also available with matching lugs and GMC center caps.

¹Go to gm.com/bluetooth to find out which Bluetooth phones are compatible with the vehicle. ²When properly equipped, includes weight of vehicle, passengers, cargo and equipment. ³Always use safety belts and the correct child restraint for your child's age and size, even with air bags. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal air bag. See your vehicle Owner's Manual and child safety seat instructions for more safety information.

SRW Single Rear Wheel DRW Dual Rear Wheel 100/xxx=100 lbs maximum of permanently attached snow plow mounting hardware/xxx lbs maximum of removable snow plow blade and blade hardware. Maximum plow weights based on maximum payload content and 50 lbs each for driver and one additional front seat occupant. Additional equipment will reduce maximum payload capacity. Rear axle weight must be maintained to maintain front axle weight below 95% of total vehicle weight when equipped with snow plow. Consult your snow plow manufacturer for specific compensating weight recommendation.				

⁴Map coverage for Puerto Rico and the U.S. Virgin Islands available on separate disc. Coverage not available for portions of Canada. ⁵Go to gm.com/bluetooth to find out which Bluetooth phones are compatible with the vehicle. ⁶Always use safety belts and the correct child restraint for your child's age and size, even with air bags. Even if vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat. Never place a rear-facing infant, child or booster seat. Never place a rear-facing infant, child or booster seat in the front seat of any vehicle equipped with an active frontal air bag. See your vehicle Owner's Manual and child safety seat instructions for more safety information. ⁷Maximum trailer weight ratings are calculated assuming a base vehicle, except for any option(s) necessary to achieve the rating, plus driver. The weight of other optional equipment, passengers and cargo will reduce the maximum trailer weight your vehicle can tow. See your GMC dealer for additional details. ⁸Maximum payload capacity includes weight of driver, passengers, optional equipment and cargo. ⁹Capacities and weight ratings are dependent on model, engine, transmission and GVWR combinations. See your GMC dealer for details. ¹⁰Cargo and load capacity limited by weight and distribution. ¹¹When properly equipped, includes weight of vehicle, passengers, cargo and equipment. ¹²Long Box models 475 lbs.

The weight of other optional equipment, passengers and cargo will reduce the maximum trailer weight your vehicle can tow. ⁵Capacities and weight ratings are dependent on model, engine, transmission and GVWR combinations. See your GMC dealer for details.

IMPORTANT WORDS

COMMITMENT PLUS

From the owner orientation—and full tank of gas—you receive when you take possession of your Sierra to the **24-Hour Roadside Assistance, Courtesy Transportation** and **Travel Benefits**. Commitment Plus is a portfolio of owner privileges that lasts throughout your warranty. For expert product information, Roadside Assistance or other services, call 1-800-GMC-8782.

TRAVEL BENEFITS AND ROADSIDE ASSISTANCE Available around the clock: trip routing service, a program for reimbursement for trip interruption due to necessary warranty repairs, towing, flat tire change, jump-starts and more for 5 years or 100,000 miles (whichever comes first).

COURTESY TRANSPORTATION Available at participating dealers: shuttle service, reimbursement of certain public transportation or fuel expenses for overnight warranty repairs, and courtesy rental for overnight work repairs. See your dealer for details.

GMC OWNER CENTER A complimentary, one-stop resource to enhance your GMC ownership experience. It's easy to sign up. Just go to gm.com/gmownercenter/gmc.

ONSTAR

OnStar is a core asset of your Sierra. Benefiting from more than a decade of innovative development, it is both a highly advanced technology—fully integrated within the vehicle—and a warm human service. Standard on all Sierra models (except WT models) are 6 months of the OnStar Directions & Connections Plan, including the convenience of available Hands-Free Calling. It also includes Automatic Crash Response, Stolen Vehicle Assistance, link to Emergency Services, Roadside Assistance, Remote Door Unlock, OnStar Vehicle Diagnostics, Crisis Assist and Remote Horn and Lights. OnStar services require vehicle electrical system (including battery), wireless service and GPS satellite signals to be available and operating for features to function properly. OnStar acts as a link to existing emergency service providers. Visit onstar.com for coverage maps, details and system limitations. Services vary with conditions.

HANDS-FREE CALLING

Available OnStar Hands-Free Calling capability is built into your Sierra. It's there when your cell phone is unavailable, its battery is low, you can't reach it easily or you left it at home or in the office. Your Hands-Free Calling system is the right choice whenever you need an easy way to make and receive calls—at the touch of the phone icon on the rearview mirror or the steering-wheel-mounted controls. Voice-activated dialing is convenient because you don't have to dial when you are at the wheel. And Hands-Free Calling is reliable because it's specially designed for better reception and fewer dropped calls in areas of limited cellular reception.

ONSTAR TURN-BY-TURN NAVIGATION

Standard on all Sierra models (except WT models) are 6 months of the OnStar Directions & Connections Plan that adds innovative, easy-to-use Turn-by-Turn Navigation plus Information and Convenience Services and Driving Directions. With Turn-by-Turn Navigation, you simply tell the OnStar Advisor your intended destination, and directions will automatically be sent to your Sierra. If you drive off course, the system can reroute you to your intended destination. An automated voice then guides you turn-by-turn until you arrive at your destination. Turn-by-Turn Navigation is further enhanced with eNAV, allowing you to send MapQuest™ directions directly to your vehicle. No need to print out directions; just call them up with simple voice commands.

SIRIUSXM SATELLITE RADIO

SiriusXM Satellite Radio® is standard on all Sierra models (except WT). It includes 3 trial months of service. SiriusXM Satellite Radio makes your drive come alive with commercial-free music channels from virtually every genre, artist-dedicated channels, live performances and more. Tune in to live play-by-play from the biggest sports, exclusive entertainment from top personalities, compelling talk, hilarious comedy, world-class news, local traffic and weather and family-friendly programming. Welcome to the world of satellite radio. Visit siriusxm.com for details.

GMC CERTIFIED SERVICE

Certified Service

To help your Sierra live up to its performance promise, GMC Certified Service—found exclusively at your GMC dealer—is there. With all the engineering excellence in Sierra, GM-trained technicians have the expertise to care for all of it.

A NOTE ON CHILD SAFETY Always use safety belts and the correct child restraint for your child's age and size, even with air bags. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal air bag. See the Owner's Manual and child safety seat instructions for more safety information.

ADDITIONAL NOTES

TRAILERING AND OFF-ROAD INFORMATION Please carefully review the Owner's Manual for important safety information about trailering or off-road driving in your vehicle.

IMPORTANT WORDS ABOUT THIS CATALOG We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this catalog and other printed materials provided at the dealership or affixed to vehicles are approximates based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of printing, please check with your GMC dealer for complete details. GMC reserves the right to lengthen or shorten the model year for any product for any reason, or to start and end model years at different times.

FLEET ORDERS Some standard content may be deleted with fleet orders. See dealer for details.

ENGINES GMC products are equipped with engines produced by GM Powertrain or other suppliers to GM worldwide. The engines in GMC products may also be used in other GM makes and models.

GMC.COM See more of Sierra on our Web site: gmc.com/sierra. More photos and information; hot links to related subjects; convenient dealer locator; pricing guide; spec out your own vehicle. Or call 1-800-GMC-8782.

AN IMPORTANT NOTE ABOUT ALTERATIONS AND WARRANTIES Installations or alterations to the original equipment vehicle (or chassis) as distributed by General Motors are not covered by the General Motors New-Vehicle Limited Warranty. The special body company, assembler, equipment installer or upfitter is solely responsible for warranties on the body or equipment and any alterations (or any effect of the alterations) to any of the parts, components, systems or assemblies installed by GM. General Motors is not responsible for the safety or quality of design features, materials or workmanship of any alterations by such suppliers.

NEW-VEHICLE LIMITED WARRANTY All GMC light-duty vehicles come with a fully transferable, no-deductible 5-year/100,000-mile (whichever comes first) Powertrain Limited Warranty. GM vehicles registered in the U.S.A. are also covered for 3 years or 36,000 miles (whichever comes first). Coverage includes tires and towing to your nearest GMC dealership. Repairs will be made to correct any vehicle defect and most warranty repairs will be made at no charge. In addition, rust-through corrosion will be covered for 6 years or 100,000 miles (whichever comes first). See dealer for details.

ASSEMBLY GMC vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce GMC vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest that you verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you.

GM MOBILITY.COM (1-800-323-9935) GM Mobility offers financial assistance for eligible adaptive equipment to make automotive travel easier for persons with disabilities or special transportation needs. To learn more about special GM Mobility offers, visit gmmobility.com.

GMCARDMEMBERSERVICES.COM Did you know about the family of reward credit cards that can help you get a great deal on a new GM car, light-duty truck, SUV or crossover? With a GM reward card, you accrue earnings on every credit card purchase to use toward the purchase or lease of an eligible new GM vehicle. With three cards to choose from, you're sure to find one that suits you.

If you subscribe after your trial period, *subscriptions are continuous until you call SiriusXM to cancel*. See SiriusXM Customer Agreement for complete terms at siriusxm.com. Other fees and taxes will apply. All fees and programming subject to change. For more information about NavTraffic, visit siriusxm.com/navtraffic. For more information about Travel Link, visit siriusxm.com/travellink. XM satellite service is available only to those in the 48 contiguous USA and DC.
